Honda had a terrible road noise among other little issues and Honda claimed everything was normal.. Well I traded that normal piece of junk for Malibu and love it! 5 out of 5 starsWorth for money 5 out of 5 starsInterior Design 5 of 5 stars Reliability 4 of 5 starsPerformance 5 of 5 starsExterior Style 38 out of 38 people found this review useful. Malibu is quiet, runs nice, looks good, and very comfortable on long trips. My only objection would be that the roof line rolls down the side too far. I am 6 0 tall and have to be careful entering and exiting the car to avoid hitting my head. Definitely happy with my decision to buy Malibu. 5 out of 5 starsWorth for money 5 out of 5 starsInterior Design 5 of 5 stars Reliability 4 of 5 starsPerformance 5 of 5 starsExterior Style 12 out of 12 people found this review useful. Your feedback has been sent to Cars.com 4 of 5 stars Good car by horse owners from NC on Sat Dec 15 2012 Malibu is good to buy in the mid size sedan category, decent comfort and decent fuel mileage of about 27 mpg overall. Not quite a race car if you like performance, but not a go-cart either. The V6 model is much stronger, but sacrifices fuel economy for performance. 4 out of 5 starsWorth for money 4 out of 5 starsInterior Design 5 of 5 stars Reliability 3 of 5 starsPerformance 4 of 5 starsExterior Style 11 out of 11 people found this review useful. So champ! There is a very reliable and great car commuting. Smallish backseat if you plan to put any adult back there, but its perfect and reliable commuting or even family 3. 4 out of 5 starsAt stake 3 out of 5 starsInterior Design 5 of 5 stars Reliability 4 of 5 starsPerformance 4 of 5 starsExterior Style 11 out of 11 people found this review useful. Mums ir tris Malibu aptverošās 4 4 Of course, none of the cars are made or look as well as the old models, but it just fits well. The car is easy to work for itself if you are comfortable. The cost of maintenance is pretty low so far, but then I'm always on top of keeping my car and know when there may be an issue. The skin picks up quite well carefully. Otherwise, be sure to buy an LTZ model loaded and you should be quite happy. Its not caddillac, but it's a loaded chevy. Everyone comments on the room and interior style. Don't wait, do it. Please make sure there is no recall to a particular vehicle that has not been taken care of before buying however. 5 of the 5 starsWorth for money 5 out of 5 starsInterior Design 5 of 5 stars Reliability 5 of 5 starsPerformance 5 of 5 starsExterior Styling 6 out of 6 people believed this review was useful.
